

Amendments to the Claims

This listing of claims will replace all prior versions and listings of claims in this application.

Listing of Claims

1. (Canceled)

2. (Currently amended) A method for navigating in a program guide, comprising:

presenting the program guide to a user,
the program guide comprising a program grid having a plurality of cells arranged in rows and at least one column, wherein:

at least one of the cells in the program grid corresponds to a navigation cell selectable by the user, the navigation cell comprising at least one navigation point, and

a remainder of the cells in the program grid corresponds to program information cells;

~~presenting in the program guide a navigation cell that may be selected by the user;~~

receiving a user selection of the navigation cell; and

navigating the program guide to [[a]] the at least one navigation point ~~corresponding to the~~

~~navigation cell~~ in response to the user selection of the navigation ~~icon~~ cell.

3. (Canceled)

4. (Previously presented) The method of claim 3, further comprising repositioning a cursor from a program information cell within the program grid to the navigation cell.

5. (Previously presented) The method of claim 3, further comprising scrolling the program information cells while keeping the navigation cell substantially fixed in response to user input.

6. (Previously presented) The method of claim 2, further comprising presenting an icon in the navigation cell.

7. (Currently amended) The method of claim 2, wherein the at least one navigation point corresponds to programs that are currently being broadcast.

8. (Currently amended) The method of claim 2, wherein the at least one navigation point corresponds to programs that are broadcast on premium channels.

9. (Currently amended) The method of claim 2, wherein the at least one navigation point corresponds to programs that are broadcast during a primetime time period.

10. (Currently amended) A method for navigating in a program guide, comprising:

presenting the program guide to a user,
the program guide comprising a program guide menu and a program grid having program schedule information;

presenting in the program guide ~~[[a]]~~ menu ~~including a plurality of navigation points that may be selected~~ selectable by the user, wherein each of the plurality of navigation points corresponds to a different display mode for displaying the program schedule information presented in the program grid;

receiving a user selection of a selected one of the plurality of navigation points corresponding to a selected display mode; and

~~navigating the program guide to the navigation point~~ displaying the program schedule information in the selected display mode in response to the user selection of the selected navigation point.

11. (Canceled)

12. (Currently amended) The method of claim 10, wherein the selected navigation point corresponds to programs that are currently being broadcast.

13. (Currently amended) The method of claim 10, wherein the selected navigation point corresponds to programs that are broadcast on premium channels.

14. (Currently amended) The method of claim 10, wherein the selected navigation point corresponds to programs that are broadcast during a primetime time period.

15. (Currently amended) A system for presenting a program guide, comprising:

a remote control that receives user input from a user; and

a control unit:

that causes the program guide to be presented to a user, the program guide comprising a program grid having a plurality of cells arranged in rows and at least one column, wherein:

at least one of the cells in the program grid corresponds to a navigation cell selectable by the user, the navigation cell comprising at least one navigation point, and

a remainder of the cells in the

program grid corresponds to program information cells,

~~that causes a navigation cell that may be
selected by the user to be presented in the program
guide,~~ that receives a user selection of the navigation
cell as part of the user input, and

that navigates the program guide to [[a]]
the at least one navigation point ~~corresponding to the
navigation cell~~ in response to the user selection of the
navigation ~~icon~~ cell.

16. (Canceled)

17. (Previously presented) The system of
claim 16, wherein the control unit also repositions a
cursor from a program information cell within the program
grid to the navigation cell.

18. (Previously presented) The system of
claim 16, wherein the control unit also scrolls the
program information cells while keeping the navigation
cell substantially fixed in response to user input.

19. (Previously presented) The system of
claim 15, wherein the control unit also causes an icon to
be presented in the navigation cell.

20. (Currently amended) The system of claim 15, wherein the at least one navigation point corresponds to programs that are currently being broadcast.

21. (Currently amended) The system of claim 15, wherein the at least one navigation point corresponds to programs that are broadcast on premium channels.

22. (Currently amended) The system of claim 15, wherein the at least one navigation point corresponds to programs that are broadcast during a primetime time period.

23. (Currently amended) A system method for presenting a program guide, comprising:

a remote control that receives user input from a user; and

a control unit:

that causes the program guide comprising a program guide menu and a program grid having program schedule information to be presented to a user,

that causes a program guide menu including a plurality of navigation points ~~that may be selected~~ selectable by the user to be presented ~~in the program guide~~, wherein each of the plurality of navigation points corresponds to a different display mode for displaying the program schedule information presented in the program

grid,

that receives a user selection of a
selected one of the plurality of navigation points
corresponding to a selected display mode, and

~~that navigates the program guide to the~~
~~navigation point~~ displays the program schedule
information in the selected display mode in response to
the user selection of the selected navigation point.

24. (Canceled)

25. (Currently amended) The system of claim 23,
wherein the selected navigation point corresponds to
programs that are currently being broadcast.

26. (Currently amended) The system of claim 23,
wherein the selected navigation point corresponds to
programs that are broadcast on premium channels.

27. (Currently amended) The system of claim 23,
wherein the selected navigation point corresponds to
programs that are broadcast during a primetime time
period.
